

## BOX LITE TASK SERIES

The Lumen Brilliance 6W 120VAC Box Lite Task Series offers versatility, durability, and enhanced illumination in the palm of your hand. Designed for conduit or surface mounting, the Box Lite Task Series utilizes Horner Lighting's latest Lumen Brilliance technology - a special array of LEDs combined with semiconductor electronics to directly drive the LEDs on a single aluminum circuit board. This enables the user to plug Box Lite into a standard 120V outlet as well as minimize the risk for failure due to heat sensitivity: the number one cause of solid state lighting failures. The Box Lite is perfect for small areas, illuminating control boxes, and most general task lighting applications.

### BENEFITS:

- Longer lifetime
- Low-energy direct drive Lumen Brilliance 120VAC - plug it right in and get to work
- 3 year warranty
- Instant strike
- -10°C to 40°C ambient temperature
- Save on energy and maintenance costs
- Low-cost, high efficacy - lower power yielding higher lumens
- Excels in most general task applications

### FEATURES:

- Minimal, clean design aesthetic
- 6W 120VAC direct drive Lumen Brilliance technology
- Sturdy brackets for conduit/surface mounting
- Quality, space-age materials

### STANDARD PERFORMANCE SUMMARY:

MODEL	CRI	CCT	VOLTS	LUMENS	TOTAL WATTS	LUMENS/ WATT	OP. TEMP.	MOUNTING
ETG-LBBL6	>80	3000K	120	375	6	62.5	-10 to 40 C	Conduit / Surface

### LIGHT DISTRIBUTION:
